

Art exhibition for conference participants

For your information, we have a limited number of exhibition spaces at the conference centre, where we would like to showcase the widest possible variety of prophetic art by artists from all across Europe. This then could be a great opportunity for conference attendees, who will be attending on all three days, to present the results of their creative work to the 'Visual Voice family'.

Guidelines:

- The work carries a message of love from the Heavenly Father or expresses His heart in some form.
- The artists themselves participate in the conference on all three days.
- The artists are prepared to stand next to their work on Friday, May 31th, from 1:30 pm to 2:00 pm. The hope is that they can exchange ideas and network with other participants, so that conference attendees can get to know the artist behind the creative work.
- Tools or equipment needed (such as an easel, pedestal, installation props etc.) which can showcase the art to its best advantage, must be brought along by the artist, who will also set up and clear up independently at the start and end of the conference.
- For complex installations, which might require an electrical connection or need larger spaces, for instance, please consult directly with me.
- No guarantee can be given on the part of the organizer for the safety of the exhibited works.

If you would like to register for such an exhibition space, under the conditions listed above, please complete the **document "Application Art Exhibition VV19"** including a portrait of you by 15 May 2019, and attach a **photo of your work**. Please send both to:
sara.liniger@visual-voice.ch

You will receive confirmation of an exhibition space by 23 May at the very latest.

I look forward in excitement to hearing from you!
With warmest wishes,

Sara Liniger
